For Immediate Release

## CTS Provides Free Day of Training to TechBridge

(Birmingham, Ala.) May 20, 2009- Computer Technology Solutions, Inc. (CTS), a leader in providing world-class technology services, presented MOSS University, a complimentary day of training, to TechBridge in Atlanta, Georgia. CTS is an IT professional services firm headquartered in Birmingham, Alabama with offices in Atlanta, Georgia and Mobile, Alabama.

Microsoft Office SharePoint Server 2007 (MOSS) helps organizations accomplish more by providing a comprehensive platform for information collection, collaboration and storage coupled with a robust workflow management capability. MOSS University helps to familiarize organizations with the various components of MOSS, take advantage of the MOSS toolset, and improve their organization. Participants learn how to connect islands of information, improve information sharing, increase employee productivity, collaborate with other business users, streamline business processes, and present metrics through custom dashboards.

*"CTS understands how to train people for business! Their experienced developers were able to show my team real life examples of how to increase efficiencies and decrease costs in our business immediately. This hands-on training is invaluable to both our developers and our Sales people." - Mark Latham - COO at TechBridge, Inc.*

TechBridge is a nonprofit consulting firm that helps other nonprofits leverage technology to better serve the community. Since opening its doors in 2000, they have delivered thousands of hours of professional technology services and programming for more than 250 nonprofits in the Atlanta community. TechBridge is an affiliate of the NPower Network.

The NPower Network is a conglomerate of locally based nonprofit organizations that provide comprehensive, high quality and affordable technology assistance to other nonprofit groups nationally. (<http://www.npower.org/>). As an affiliate of the national NPower Network, TechBridge has facilitated the donation of more than \$2 million in free Microsoft software. Since its inception, they have saved Georgia nonprofits more than \$1 million in technology related consulting fees.

During 2009, CTS is collaborating with more than 50 companies throughout the Southeast to provide one-day complimentary on-site MOSS training events, complete with interactive labs. The goal of these sessions is to help client organizations maximize their SharePoint investment.
