

MEET TECHBRIDGE

TechBridge is a nonprofit that helps other nonprofits use technology to do more and serve more people.

For over 10 years, TechBridge has provided IT consulting, hosting and outsourcing services to hundreds of nonprofits. TechBridge is now uniquely positioned to bring together subsidized project management, donated technologies and skilled volunteers to achieve significant impact on our community: transforming one nonprofit at a time.

Join us. Get involved today.

"Community involvement is key to business success and TechBridge has become a focal point for community service activities for technology professionals."

John Seral, VP & CIO, GE Energy

Support TechBridge

By providing financial support to TechBridge you help hundreds of nonprofits harness the power of technology, assuring a stronger, better community for us all.

Digital Ball – Identified by many as 'the technology event to attend,' the Digital Ball is TechBridge's signature fundraising gala that brings together Atlanta's technology, business and nonprofit leaders. Meet CIOs, improve your company's visibility in a crowded field, and jump-start relationships with other TechBridge supporters.

SIM Golf Tournament – The only occasion during the year that affords you the opportunity to network on the green with SIM Atlanta CIOs and other senior IT decision makers. All proceeds benefit TechBridge.

Technology Education Series – Sponsor a seminar to educate nonprofits on technology issues. Share your expertise and reinforce your position as a leader in your chosen field.

Knowledge Center – Support the '911' Help Desk for the nonprofit community – a single point of contact for technology questions, issues, and emergencies.

Nonprofit Project – Partner with TechBridge to transform the way in which a nonprofit serves our community. Provide funding and volunteer resources to 'adopt' a technology makeover for a cause you care about.

Handheld Wireless Recycling – Solve the challenge of what to do with outdated devices while benefiting TechBridge, our community, and the environment at the same time.

Charitable Donation – One contribution from an individual, foundation or corporation enables TechBridge to provide critical technology services to hundreds of nonprofits.

Get Involved

In 2010, 200 individuals from 50 companies volunteered 7,000 hours to support TechBridge. Opportunities for our corporate partners for skills-based volunteerism range from client projects and operations to committee and board participation.

Use your technology skills to contribute to the community in a way only you can.

"As IT professionals bringing value to our own companies through technology, we are proud to work with TechBridge to extend that same value to nonprofits."

Becky Blalock, SVP & CIO, Southern Company

Have Impact Today

Donations to TechBridge have extraordinary reach. Consider that TechBridge currently:

- Maintains the infrastructure for 45 nonprofits with 2,500 users
- Hosts websites and email for over 200 nonprofits
- Resolves 500-600 Help Desk calls per month

The nonprofits we serve impact over 5 million people annually. Your donation to TechBridge makes that happen.

"For every hour of services I buy from TechBridge, you donate the next hour. I thank you for that."

Vince Smith, Director, Gateway Center

ENGAGE TECHBRIDGE

TechBridge is a nonprofit that helps other nonprofits use technology to do more and serve more people.

Technology Services for Nonprofits

Managed Services – Keep computers and applications healthy by outsourcing technology support for preventative maintenance; system and program updates (including virus protection); and problem solving across your technology environment.

Technology Assessment, Planning and Consulting – Plan, evaluate, select and implement the right software and hardware for your specific needs, processes and budget.

Transformative Services – Automate core business processes to drive efficiency and free up time to focus on your mission.

Only TechBridge brings you subsidized technology services, backed by a team of skilled volunteers from leading global corporations.

"We now have peace of mind that TechBridge is taking care of our systems, which lets us focus on the needs of our residents."

David Sprowl, Executive Director, Lutheran Towers

Membership

Membership with TechBridge means reduced rates on TechBridge services; access to the Knowledge Center for telephone support; donated Microsoft software; complimentary admission to the TechEd Seminars; free website hosting; and other vendor discounts. All for one low flat rate fee.

Technology Innovation Award

Presented annually at the Digital Ball, the Technology Innovation Award, given by Accenture, recognizes nonprofits that have ideas for impactful, innovative technology projects. The award offers over \$75,000 in software, services and cash to the winner and two finalists. Apply for a technology makeover, then work with TechBridge to put your dream technology plan into action.

"Receiving the Award gave us credibility with the technology community and sent a message that we could work with other organizations on technology initiatives. Quite frankly, it opened a lot of doors."

Bill Bolling, Executive Director, Atlanta Community Food Bank

Technology Education Series

The TechEd Series of seminars offers nonprofit professionals an opportunity to learn about and work together on technology issues affecting their businesses. Participation is complimentary for TechBridge Member nonprofits – other registrants pay a nominal fee of \$25.

Impact in Action

The Tommy Nobis Center provides job skills training and employment placement to individuals with disabilities.

Since 1977 the Center has helped 20,000 individuals find dignity and success in the workplace. In just four months, TechBridge designed and implemented an online system to automate the intake and tracking of client data. Leveraging donated technologies from Microsoft and Salesforce.com and skilled corporate volunteers, the solution was affordable and sustainable.

The results are already astounding:

- Time for individual client intake reduced by 70% from 2.5 hours to 45 minutes, resulting in 3 to 5 more clients processed per week or 100 new clients per year, a 15% increase.
- Time saved by automated reporting is projected to be 8 hours per reporting period.
- Client records now shared easily with office staff – saving 4 hours per week.
- Staff has more time to provide counseling on transportation, medical, housing, and financial needs.

That's technology having an impact. That's the work of TechBridge.
